

# Pain, It's Only Them

Since I was a kid I've seen greedy people  
just grabbing all they could take  
I promised myself I'd never become like them  
I can feel they're closing up on me, closer than I ever thought  
how could I have been so dumb, why didn't I see it, feel it,  
smell it, taste it

it's only them coming from all directions  
walking all over me again and again

they're feeding off your kindness, squeezing life right out of you  
like a vampire sucks you dry, you cannot run and hide  
if you give them a helping hand, they will take your whole life  
without thinking twice, the only thing they want is  
more and more and more

now I got a parasite into my life  
I didn't see it coming 'til it almost broke me down

it's only them, you don't give - you're a taker  
it's a matter of the size of your wallet  
and the money that you're making  
it's only them and nothing is sacred  
they don't care if you break your neck  
as long as they'll make it

it's only them coming from all directions  
walking all over me again and again

a tattoo burned on my skin, a disease without a cure  
like a blind man running in circles on a dead end street

now I got a parasite into my life  
I didn't see it coming 'til it almost broke me down

it's only them, you don't give - you're a taker  
it's a matter of the size of your wallet  
and the money that you're making  
it's only them and nothing is sacred  
they don't care if you break your neck  
as long as they'll make it

ah, it's only them...  
ah, it's only them
