

# Pain, Nitro

i woke up with a cough  
a germ had gotten on me  
and i couldn't get it off of me  
my mom would say to take some medicine  
right away so i did  
real bad cough, yeah, real bad cough  
i found a bottle in a drawer  
i thought it was cough syrup  
but i couldn't have been more wrong  
i drank it down and then i found  
to my complete amazement  
i swallowed some nitro, i swallowed some nitro  
i swallowed some nitro, am i gonna die?  
i swallowed some nitro, i swallowed some nitro  
where does a guy go when he swallows some nitro?  
how will i explain this to my mom?  
i'll have to call her up and tell her i'm a human bomb  
and she will feed me baby food just like the did to grampaw  
just like grampaw, just like gramps  
oh well, no more taco bell  
and smokin' cigarettes will probably get me blown to hell  
and if i go, i guarantee, my pop is goin' with me  
i swallowed some nitro, i swallowed some nitro  
i swallowed some nitro, am i gonna die?  
i swallowed some nitro, i swallowed some nitro  
where does a guy go when he swallows some nitro?  
am i gonna explode?
