

Pain, Parallel To Ecstasy

(? I feel----calling--?)

I can feel the energy

Feels like I've been up on an experiment on ecstasy

I feel it kicking in again (?--?)

Your only motive, your alive you never die

Searching for those sleepless prayers of your life

Come to find out that you been living a lie

Realities reflect the shadows in the night

Did you ever realize how I know,

Like nowhere riding around with a gun

Ride around the storm will never stop

(?---?) when all the lucky ones get by

Re-entering a pain called life

Pain is life

Life is pain
