

Paisley Brain Cells, Paisley Brainstorm

I could tell you yes and I could tell you no
I could tell you anything but you don't want to know
And I wonder, yes I wonder, where you're going
You're looking kind of nervous, you don't think it's showing
I could tell you how and I could tell you why
I could tell you anything to make you feel all right
And I wonder, yes I wonder, what you're thinking
When you look at me and smile with your little eyes a-winking
I could call you up and I could let you down
I could tell you anything to make you come around
And I wonder, yes I wonder, what you're doing
The writing on the wall says there's trouble brewing
I could make you laugh and I could make you cry
I would say hello but you just said goodbye
And I wonder, yes I wonder, where you're going
You're looking kind of nervous, you don't think it's showing
