

# Palaxy Tracks, Speech With Animals

Kathy I want you at home

"Now I know I was wrong," said the man to his wife

"I learned that I just can't pretend that I know it's because you were bored right from the start.

I'm talking now to the old ones

In their old country lives, getting words from the wise

Share with me all you would change

Is it love or the way

You cannot lie face to face

Now that we've come to this place

It is time to decide

Are we still man and wife

The words are not all that I won't understand years from now

We've become all that we hate

Learn to die or learn to rise above
