

Paloalto, Throwing Stones

Praise yourself
Hold
You can look as though you never should fall
Crumpled up
Lost
You can push yourself right out of this
World
Is this what you are
Better than you show
You're the perfect one
That's how you are
Is this what you feel
Better
Is this what you are
Is this what you are
Pick yourself up
Punched and drunk it's better than you can show
Cracked yourself up
It's enough you should talk
This is where you came from
Is this what you are
Better than you show
You're the perfect one
That's how you are
Is this what you feel
Better
Is this what you are
Is this what you are
And it's taking what you've done
In your mind
There's time
And it's taking what you've done
In your mind
There's time
Is this what you are
Better than you show
You're the perfect one
That's how you are
Is this what you feel
Better Better
Is this what you are
Is this what you are...
Is this what you feel...
