

# Paloma Faith, How You Leave A Man

You'll know

When you're tired of neglect and degraded

He'll find out when he wakes up alone

He'll call you 10 times but don't take it, don't take it

Whoa whoa whoa

Pack up all your clothes

Car is full of cash

Head on down the road

No no no

Creepin on the low

Don't give another chance

This is how you leave a man

Make him really understand

He'll do anything that he can

He'll try to pull you closer

Tell you that it ain't over

Remember what I told ya

This is how you leave a man

Slippin right through his hands

He'll do anything that he can

He'll try to pull you closer

Tell you that it ain't over

Remember what I told ya

This is how you leave a man

He'll know

When you change your locks and your number

He's sleeping with people unknown

He'll beg to get back in the covers, your covers

Whoa whoa whoa

Pack up all your clothes

Car is full of cash

Head on down the road

No no no

Creepin on the low

Don't give another chance

This is how you leave a man

Make him really understand

He'll do anything that he can

He'll try to pull you closer

Tell you that it ain't over

Remember what i told ya

This is how you leave a man

Slippin right through his hands

He'll do anything that he can

He'll try to pull you closer

Tell you that it ain't over
