

# Pam Tillis, Hurt Myself

(Savannah Snow)

Ain't tried cigarettes  
There is always alcohol  
I could stay up all night long  
Don't need to sleep at all  
I've got credit cards  
I could run'em up  
I could play with knives  
I could drink and drive  
And if that ain't enough  
If I need another way to hurt myself  
If I really miss the heartache  
If I wanna hear some empty promises  
If I really need the pain  
I know where to find you  
If I need another way to hurt myself  
I've got memories  
I could dig'em up  
I could play a losing head  
Just to try my luck  
Go out every night  
Find someone to love  
I could walk the wire  
I could play with fire  
And if that ain't enough  
If I need another way to hurt myself  
If I really miss the heartache  
If I wanna hear some empty promises  
If I really need the pain  
I know where to find you  
If I need another way to hurt myself  
And if I wanna love somebody  
Who wants me to be somebody else  
Well, I know where to find you  
If I need another way to hurt myself  
Ain't tried cigarettes  
There's always alcohol
