

# Pam Tillis, Wish I Was In Love Tonight

The stage is set  
The lights are low  
Soft music on the radio  
The sheets are fresh  
The wine is cold  
And nights like this  
Were made for love  
And now there is only one thing wrong  
I wonder why I'm all alone

Oh, I wish I was in love tonight  
Then everything would be alright  
With someone to love  
I take a look at all I've got  
It doesn't really mean alot  
With no one to love

I can't help but fantasize  
Of looking into hungry eyes  
Instead of all this empty space  
I reach out and touch his face  
We take our time, no need to rush  
That's the way I wish I was

Oh, I wish I was in love tonight  
Then everything would be alright  
With someone to love  
I take a look at all I've got  
It doesn't really mean alot  
With no one to love

Oh, I wish I was in love tonight  
Then everything would be alright  
With someone to love
