

# Pansy Division, He Could Be The One

Yesterday I met a guy,  
the kind I dream about at night  
he said come on lets take a ride,  
and I said okay... yeah  
every movie major's really hip,  
he's hip uh huh  
he could be the one to come and steal my heart away

he could be the one... I like his style  
he could be the one... his love ive tried  
he could be the one to make it all worth while... yeah  
he could be the one, he could be the one  
he could be the one, he could be the one

I got to say he's super fine  
I cant get him off my mind  
I know he's not a waste of time,  
he's got it all... yeah  
every movie major's really hip,  
he's hip uh huh  
got my name and number and im waiting on his call... hey... ohhh

he could be the one... I like his style  
he could be the one... his love ive tried  
he could be the one to make it all worth while... yeah  
he could be the one, he could be the one  
he could be the one, he could be the one

in this modern day and age  
there's just another blasting stage  
everybody's out to score,  
but love to me is so much more! let's go!

hey ohhh!he could be the one  
he could be the one  
he could be the one to make it all worth while
