

# Paolo Nutini, Caledonia

I don't know if you can see, the changes that have come over me  
In these last few days, I've been afraid that I might drift away  
And I've been tellin' old stories, singing old songs  
That made me think about where I came from  
That's the reason why I seem so far away today

Let me tell you that I love you  
And I think about you all the time  
Caledonia you're callin' me and now I'm going home  
But if I should become a stranger  
You know that it would make me more than sad  
Caledonia you're the best friend I've ever had

Well I've been moved, and I've kept on movin'  
And I've proved the points that I needed provin'  
Lost the friends I needed loosin'  
Found others on the way  
And I have kissed the ladies and left some cryin'  
Stolen dreams...no, there's no denying  
And I've Partied hard with coattails flyin'  
Somewhere with the wind

Let me tell you that I love you  
And I think about you all the time  
Caledonia you're callin' me and now I'm goin' home  
But if I should become a stranger  
You know that it would make me more than sad  
Caledonia you're the best friend I've ever had

Let me tell you that I love you  
And I think about you all the time  
Caledonia you're callin' me and now I'm goin' home  
And if I should become a stranger  
You know that it would make me more than sad  
Caledonia you're the best friend I've ever had
