

Paolo Santos, Real Thing

Real Thing
Paolo Santos

Here comes the night once again
I am feeling lonely
Oh, if only things got turn out like you planned

Where could love be?
Tell me why it's so hard to find somebody
Who would stand by me and take the time to understand?
So we are again

I want the real thing or nothing at all
I need someone that I can be sure
Who will catch me if I should fall
Someone who'll be there when I call
And I know that it's the real thing

To hold me each night
Someone to love me over and over
Someone who'll be there when I call
Just give me the real thing

Where is that moon?
Who needs smile on this one more dreamer?
Let your beam come down and fill my empty wound

Here comes the night
But if there's still a chance love would find me
I'm will be here crossing my fingers

Or nothing at all
I need someone that I can be sure
Who'll catch me if I should fall?
Someone who'll be there when I call
I know that it's the real thing

To hold me each night
Someone to love me over and over
Someone who'll be there when I call

I wanna know for sure that I can feel secure
Knowing I found an everlasting love
Once I've got that on under control
No I won't let go

I want the real thing or nothing at all
I need someone that I can be sure
Who will catch me if I should fall
Someone who'll be there when I call
It's got to be the real thing
Got to be the real thing
I'm making the future right
Someone who'll be there when I call
Just got to be the real thing
