

# Papa Roach, Bloodline

I got cold feet  
Running through the summer in the hot heat  
Didn't see it coming but it saw me  
I can't believe it took me by surprise

Heart beat  
Hitting in my chest harder than concrete  
Laying in the shadows and I won't sleep  
Til it's safe for you to close your eyes

I lay my life down on the line  
I got you  
I'll watch your back if you got mine  
I got you  
I got you  
I got you

This ain't ordinary life  
If all we do is just survive  
These aren't ordinary times

We can't go outside  
The house is on fire  
And everybody's try'na protect the bloodline

We can't go outside  
The house is on fire  
And everybody's try'na protect the bloodline  
We can't go outside  
The house is on fire  
And everybody's try'na protect the bloodline

B-b-brake check  
Fear has got you spinning like a tape deck  
Everybody sucking on that high tech  
Take me back to 1989
