Papa Roach, Broken As Me

You just as broken as me

We're only getting sick
From the secrets we hide
Disaster is, a master is
We lay here burning in bed
But something tells me

I cannot kill someone new yet I will knock you out, burn you today

I will forgive, forgive
'Cause I know that it will set me free
But all thats left its the emptiness inside of me
You murder my heart
Broke my trust and watch me fade away
Now I see, now I see
That you just as broken as me
You just as broken as me

You always play the victim
And you just can't decide
All the whishes when we love each other
You always play the victim
And you just can't decide
All the whishes when we love each other
Fuck up ours lives

..

This is what left
If you really love me
Will you love me today?
I will love till dead!

I will forgive, forgive
'Cause I know that it will set me free
But all thats left its the emptiness inside of me
You murder my heart
Broke my trust and watch me fade away
Now I see, now I see
That you just as broken as me
You just as broken as me
