

# Papa Roach, Done With You

I count the days that we have spent apart  
I've got a bad liver and a broken heart  
There's no salvation in the comfort of you  
I finally realized your tearing me apart

[Chorus:]

So help me, save me, tell me that the end is near  
Help me, save me, tell me that the end is near  
I am done with you

You made my life completely miserable  
You drove me to the edge, you've caused me all this pain  
But I've always loved you cause your oh so special  
I'm broken and I'm alone and I can't maintain

[Chorus]

Done with you (done with you)  
I am done with you (done with you)  
I am done with you (done with you)  
I am done with you (done with you, I'm done with you)

I count the days that we have spent apart  
I've got a bad liver and a broken heart

Help me, save me,  
Tell me that the end is near  
Help me, save me,  
Tell me that the end is here  
I am done with you

Because you and me are through  
You couldn't help me  
You couldn't save me  
Now I know the end is here  
I am done with you
