

Papa Roach, I Almost Told You That Loved You

You know,
I love it when you're down on your knees
And I'm a junkie for the way that you please
You shut me up, and you swallow me down
My back to the wall you're going to town
I Almost told you that I loved you
Thank god I didn't cause it would have been a lie
I say the damndest things
When you're on top of me
I Almost told you that I loved you
I hate to say it, but I have to be said ..
You look so fragile as I fuck with your head
I know it shouldn't but it's scarring me of
If sex is the drug then what is the cause
I Almost told you that I loved you
Thank god I didn't cause it would have been a lie
I say the damndest things
When you're on top of me
I Almost told you that I loved you
If I'm the one that you want
The one that you need
My love is like a fucking disease
You can give me your hand
You can make your demand
I'm your hardest motherfucker to breath
I Almost told you that I loved you
Thank god I didn't cause it would have been a lie
I say the damndest things
When you're on top of me
I Almost told you that I loved you
I almost told you god bye
