

Papa Roach, Revenge

Remember the girl
Abused with forks ,knoves and razorblades
She finally left him, she had enogh of her man's rage
Band-aids cover her scars, she left him bloodied
Beat his ass with a bat, face sunk like Silly Putty
Y'all can sit back so I can study
Destruction of the family design
And how the morals of society decline
Essentially is beats to rhymes like grapes to wine
It's alright we're in love
Can't live with or without
See, see she can't live with hime and can't live without him
Stress got her down, she needs to deal with her problems
While the drama gets deeper, I put on the reefer
She took the last step and sent his ass to the reaper
Chaos is what she saw in the mirror
Scared of herself and the power that was in her
It took over and weighed heavily on her shoulders
Militant insanity is now what controlled her
Kill it, before it reaches you
Missiles won't it's approaching the mainland
Waht if it reaches the metropolitan areas, cosmopolitan areas
Secure the lines, prepare for departure, calm, calm, calm
It is big business and seems to be advanicng underground
Because my style is underground
I'm green with my red eyes mad tint
Flee, flee, flee, rapido rapido
She feed plentiful, electrifying the nation
Don't you see that we are in danger
How will we stop it
She is attacking
