

# Papa Roach, State of emergency

Theres a movie playing in my head  
Bombs falling and children crying  
The sunrise the sky runs red  
Load your guns tonight  
Theres a song playin down the hall  
All alone theirs and old man dying  
I cant feel anything at all  
Something isnt right!  
This is a state of emergency  
Ive been running from a tragedy  
Theres a battle raging in my head  
And I dont want to be left for dead  
This is a state of emergency  
Dont want to be another casualty  
Theres a cemetery in my head  
And I dont want to be left for dead  
Theres a world standing in my way  
Father said that I best stop trying  
Stand down it will be ok  
You dont have to fight  
Theres a picture hangin on the wall  
Of a memory that Im denying  
The sun sets and the angels fall  
Something isnt right!  
This is a state of emergency  
Ive been running from a tragedy  
Theres a battle raging in my head  
And I dont want to be left for dead  
This is a state of emergency  
Dont want to be another casualty  
Theres a cemetery in my head  
And I dont want to be left for dead  
No, dont leave me here alone  
I dont want to make this hell my home  
I would rather die than sell my soul  
I would rather lie than let you go  
Theres a voice screaming in my head  
Telling me that I best stop crying  
Stand up it will be ok  
Load your guns tonight  
This is a state of emergency  
Ive been running from a tragedy  
Theres a battle raging in my head  
And I dont want to be left for dead  
This is a state of emergency  
Dont want to be another casualty  
Theres a cemetery in my head  
And I dont want to be left for dead  
State of emergency  
State of emergency  
State of emergency  
State of emergency  
Dont wanna be left for you  
Left for you  
Left for you
