

# Papa Roach, Warriors

We are the warriors /4x

It feels like we are headed for a meltdown  
I'm trying as you said things start to run out  
I know that there's a really shitty system  
We're breaking down the walls of this prison

We are the warriors /4x

So shine your light  
Push the enemy back  
When you're under attack  
It will protect you  
Kill the night  
All we need is the spark  
We can bury the dark, ignite  
Come on and shine your light

We saw and it's a really big inferno  
Illuminate our lives, we are eternal  
Deny the inner head-on collision  
We sacrifice ourself for the mission

We are the warriors /4x

So shine your light  
Push the enemy back  
When you're under attack  
It will protect you  
Kill the night  
All we need is the spark  
We can bury the dark, ignite  
Come on and shine your light  
Come on and shine your light

Madness come  
Surrounds me as I fall into  
Bad shit happens to all of us  
The action is ...  
You know I didn't last this long  
In anything less than a war  
We could have a chance  
Savage  
Better that than the never

We are the warriors /4x

So shine your light  
Push the enemy back  
When you're under attack  
It will protect you  
Kill the night  
All we need is the spark  
We can bury the dark, ignite  
Come on and shine your light  
Come on and shine your light

We are the warriors /3x  
Come on and shine your light  
/2x

We are the warriors /2x
