

Papa Vegas, Long Days

(written by Joel Ferguson)

Been down so long, it's all undone

Looks like she made it

Been locked inside this orange room

So long I'm jaded

In ten thousand years

I'll understand it all

She can't hide beside the fire's out

No sparks for trying

Long days we've stayed beneath the sun

Our mouths are drying

In ten thousand years

I'll understand it all

You let 'em fade away

In ten thousand years

I'll understand it all

You let 'em fade away

Kinda like the pain

Just let 'em fade away
