

Parachute, Strange World

Let me up
My world is spinning
And it just won't stop
I'm so deep in it
And I've had enough
I just can't do it again

But then you drop that bomb
All I can hear is
All these car alarms
And then I realize
That I've gone too far
And now I'm slipping away, hey, hey, hey

So keep me hanging on
Hold me down
And stop me when I fall
Love me when it makes no sense at all
Even when I'm gone
Keep hanging on
You've got me living in a strange world, strange world, strange world
I'm living in a strange world, strange world, strange world

Shadows swim
I hear them laughing
At the state I'm in
Their eyes keep staring
And they just won't quit
And they just whisper your name

Oh but then I close my eyes
I never sleep through
All these endless nights
And when I dream
It's only black and white
And I'm just slipping away, hey, hey, hey

So keep me hanging on
Hold me down
And stop me when I fall
Love me when it makes no sense at all
Even when I'm gone
Keep hanging on

Crazy
Everybody thinks that I am
Crazy
Everybody thinks I can't slow down
Slow down

Keep me hanging on
Love me when it makes no sense at all

So keep me hanging on
Hold me down
And stop me when I fall
Love me when it makes no sense at all
Even when I'm gone
Keep me hanging on
You've got me living in a strange world, strange world, strange world
I'm living in a strange world, strange world, strange world

To love me when it makes no sense at all
Even when I'm gone

Keep me hanging on
You've got me living in a strange world, strange world, strange world
I'm living in a strange world, strange world, strange world
