Parachute, Strange World

Let me up My world is spinning And it just won't stop I'm so deep in it And I've had enough I just can't do it again

But then you drop that bomb All I can hear is All these car alarms And then I realize That I've gone too far And now I'm slipping away, hey, hey, hey

So keep me hanging on
Hold me down
And stop me when I fall
Love me when it makes no sense at all
Even when I'm gone
Keep hanging on
You've got me living in a strange world, strange world
I'm living in a strange world, strange world

Shadows swim
I hear them laughing
At the state I'm in
Their eyes keep staring
And they just won't quit
And they just whisper your name

Oh but then I close my eyes
I never sleep through
All these endless nights
And when I dream
It's only black and white
And I'm just slipping away, hey, hey

So keep me hanging on Hold me down And stop me when I fall Love me when it makes no sense at all Even when I'm gone Keep hanging on

Crazy
Everybody thinks that I am
Crazy
Everybody thinks I can't slow down
Slow down

Keep me hanging on Love me when it makes no sense at all

So keep me hanging on
Hold me down
And stop me when I fall
Love me when it makes no sense at all
Even when I'm gone
Keep me hanging on
You've got me living in a strange world, strange world
I'm living in a strange world, strange world

To love me when it makes no sense at all Even when I'm gone Keep me hanging on You've got me living in a strange world, strange world, strange world I'm living in a strange world, strange world
