

Paradise Now!, This Is A Lovesong

Must be the way you walk
Must be your hair
Must be the way you talk
The way you glare

Must be the things you do
Must be your eyes
Must be that special brew
Must be your lies

This is all
This is all
All
This is all not important
This is all
This is all not important
The only thing that counts...

Must be the way you smell
The way you fell
Into the grass
Must be your ass

This is all
This is all
All
This is all not important
This is all
This is all not important
The only thing that counts is you
