

# Paradox, Ballot or Bullet

Politician, tribulation, inequality  
Extremism, terrorism, kill the enemy  
Execution, the solution, power in our hands  
Violence is the only language that you understand  
Shout! A better life for the weak and poor!  
Shout! The revolution must break the law!

Constitution, destitution, something's going wrong  
Elitism, despotism lasting far too long  
Shout! You heard us calling, you heard the cries  
Shout! And all we got from you, is a pack of lies

Ballot or bullet, you have to choose  
Fight or don't, win or lose  
Ballot or bullet, what is your way?  
Something's clear: you have to pay

Now we are living by the bomb, this is our choice  
Now we resist, we oppose, strong is our voice  
Now we're the people, we're the crowd, represent the land  
Now we decided to fight harder as you can

Demolition, detonation, blood will have to flow  
Resurrection, agitation, state is our foe  
Unemployment, poverty are feeding our hate  
Revolution, the contribution to the people's fate  
Shout! A confidential and hidden place  
Is home and center, that's our base

Ballot or bullet, you have to choose  
Fight or don't, win or lose  
Ballot or bullet, what is your way?  
Something's clear: you have to pay
