

# Part Six, Drive So Far

Chorus:

Baby we can make through these hard, hard times,  
If we get in my car and lets drive gonna drive so far,  
gonna drive into the deepest sunset,  
gonna show you something you aint seen yet.

Verse 1:

Ive seen people reach up high for their dreams,  
Had their heads in their clouds, yes I know how this seems,  
Baby please cant you see what it is,  
Im, Im trying to tell you.  
Ive seen so many people on the streets all alone,  
Lost all they had, because of a loan,  
Didnt come home, I should have known,  
Left their wife and children.

Oh and I never told you,  
Why I want to give you,  
Everything to show you I care,  
And I never gave you,  
What then could have changed you,  
Im begging to let me make things better, oh baby

Chorus:

Baby we can make through these hard, hard times,  
If we get in my car and lets drive gonna drive so far,  
gonna drive into the deepest sunset,  
gonna show you something you aint seen yet.

Verse2:

So many people think Im crazy cause of what I do,  
When I think of you, I get lost in my view,  
I dont know what to do,  
Ive got a crush on you.  
I miss that shiny face with the twinkling eyes,  
And the cute little smile that gets me hypnotised,  
Youre like a nice surprise to my life,  
and girl, girl I need you, too.

And I may not know you,  
But I think that weve done pretty good so far,  
So show me who you are.

Chorus:

Baby we can make through these hard, hard times,  
If we get in my car and lets drive gonna drive so far,  
gonna drive into the deepest sunset,  
gonna show you something you aint seen yet.

C-Part:

Maybe we can try to do what we aint done yet,  
Like Romeo and Juliette,  
I can give you more than, any other guy can,  
cause girl you set my heart on fire, oh baby.

Chorus:

Baby we can make through these hard, hard times,

If we get in my car and lets drive gonna drive so far,  
gonna drive into the deepest sunset,  
gonna show you something you aint seen yet.
