

Part Six, What's That Sound

What's that sound
Bangin like a drummer baby
What's that sound
Hit's just like a hammer baby
What's that sound
Like static on my radio
Can you feel it
We're past the point of no return
Can you feel the fire burn

She's my salvation
My everything, my inspiration
My remedy, my desperation
Girl you make my heart go
Bang bang bang
What's that sound of love
And i wanna hear it ring forever
Never let me go, not ever
Bang bang
What's that sound of love

What's that sound
Rolling in like thunder babu
What's that sound
Like a rocket taking off now baby
Kicking me alive inside
Hold on tight now
Where past the point of now return
Can you feel the fire burn
