Pat Benatar, In My Dreams

I have been here in this lonely place Longer than I care to think or say Hopin' with a little luck Maybe I'd find someone like you

I have watched you nearly every morning Gettin' your coffee, stretchin', yawnin' Doin' all the little things you do To start your day

[Chorus 1] In my dreams I hold your hand Lay my cheek close to yours And hold back as long as I can Feel the sweet sting of your kiss as our lips combine

I know that you've seen me, too Once you smiled when I looked at you I wonder if you thought about me The way I thought of you

Maybe I just make too much of passing glances Fleeting touches, maybe I'm a dreamer Maybe so are you

[Chorus 2]

In my dreams I hold you close Love you the way that I'd hope Say what you already know In my dreams I pretend That you are mine
