

Pat Benatar, Tell Me Why

THE EFFECT YOU HAVE ON ME

Pat Benatar

Written by: M. Heyral, E. Piaf, C. Severac, S. M. Edgren

From the CD "Tribute to Edith Piaf" (1993)

There are people who have no trouble

In expressing how they feel

For me it's never been that bad

It's just the way I've always been

CHORUS:

I often try to tell my friends

About the Effect You Have On Me

I don't know why, I can't explain

When you are near, my heart is weak

It spins around my head and then

Recalls your fingers down my spine

It goes away, it comes back again

Makes me cry, it makes me shy

You have in your hand my _____ of love

And in your eyes all that I _____

What more could I expect from life

Than your lovin' and tender kiss

And they can talk about paradise

And all the dreams that ought to be

I _____ doubt it could compare to

The Effect You Have On Me

There are no words, no reason why

The tears that sometimes fill my eyes

They're only tears of happiness

It's only fear of losing you

(Repeat Chorus)

Only your voice can bring me peace

Only your touch can bring me joy

What more should I expect from this life

When so many people still search for love

I know I never will explain

This Effect You Have On Me

But if I have on you the same

We'll be in love....eternally
