

# Path Of Resistance, Best Of My Best

Won't stray from the path that my heart has set for me  
Disconnect myself from all the cruelty  
When I look back there is nothing that I could regret  
The best of my best, best of my best when I am compassionate  
Vanity, laziness put to an end to that weakness  
Took the time met my goal till I was free from the sickness

Fields of grain for feed waste wild land  
Pollution from factory farms  
Bacteria contaminates  
None escape unharmed  
The horrors of the slaughter house  
To most their awareness is nil  
Time to face the issue, force the answer  
Its better not to kill  
An unsustainable, destructive process  
Weigh it out, don't deny  
Its time to leave it all in the past

When I look back there is nothing that I could regret  
The best of my best.
