

# Pathos, Uni Versus Universe

All that's mine, owned by time  
My inner void will die, come to an end  
In the fall of the human race  
We will kill our god that will descend  
We wish to be eternal, never see the end  
Our deeds they are infernal  
The given laws we bend  
Universe a void to fill  
To tap our souls we need to drill  
Inside us the answer will live  
Inside us the riddle that gives  
The life as we know it will end  
And the gods that we know and depend on  
Uni versus universe  
Uni versus us all  
Uni versus universe  
Uni versus us all  
DNA is the way  
To control human race, live to last  
In between man and machine  
We will kill the spirits of our past  
We wish to be eternal, never see the end  
Our deeds they are infernal  
The given laws we bend  
Universe a void to fill  
To tap our souls we need to drill  
Inside us the answer will live  
Inside us the riddle that gives  
The life as we know it will end  
And the gods that we know and depend on  
Uni versus universe  
Uni versus us all  
Uni versus universe  
Uni versus us all
