

Patrice, Here Again

(Chorus)

(Patrice)

I'm here again

I'm here again

Singing for a brighter day

Understand

I understand

How we ever went away

(Keziah)

Dreams and things yeah

Chains and rings yeah

Silver and gold

From our souls

The world's gotta know (x6)

(Patrice)

True warrior here again

I feel so sorry for the ye and then

And you feed your souls with it

Sounds like those yeah

We'll be forcing I don't mean again

(Keziah)

Everday you gotta change our ways

Love has it's way so don't loose your way

Make sure there is something left for those on the way

For a brighter day

Those on the way, a brighter day

(Chorus again)

The world's gotta know (x6)

And everything she says just rise my love

The curve she loves you line

I mean, when you say what you say

When you say whay you say

It happens all the time

This is treat-off paradise

Mean the love between the girls and boys

The love between me and my friends

Permently won't end

So real I cant pretend

(Keziak)

Everday you gotta change your ways

Love has it's way so don't loose your way

Make sure there is something left for for a brighter day

Those on the way, a brighter day

Brighter day, brighter day...

Oh oh oh oh uh uh uh
