

# Patrick Nuo, Take Me To The Moon

I'm gonna tell a story,  
To my love.  
If you don't hear this message,  
You will get it from above.

I'm running endless streets  
To find you unknown girl.  
Somewhere you're meant for me  
And I promise you my world.

Take me to the moon,  
If you want to.  
Take me to the stars,  
If you can.  
Take me to the moon  
As soon as possible  
And back again.  
Take me to the moon.  
Oh.

Every dream's about you,  
Day and night.  
Oh hmm.  
I've been so long without you,  
But I feel you all my life.  
Imagine you live next to me  
And just came through my door.  
How blind my eyes can be  
I can't take it anymore.

Take me to the moon,  
If you want to.  
Take me to the stars,  
If you can.  
Take me to the moon  
As soon as possible  
And back again.

Take me to the moon,  
If you want to.  
Take me to the stars,  
If you like.  
Take me to the Venus  
As we find a way  
We'll be alright.

Take me to the moon.  
We'll get there,  
We'll make it on time.  
Take me to the moon,  
And back here  
And you will be mine.

Take me to the moon,  
If you want to.  
Take me to the stars,  
If you can.  
Take me to the moon  
As soon as possible  
And back again.

Take me to the moon,  
If you want to.  
Take me to the stars,

If you like.  
Take me to the Venus  
As we find a way  
We'll be alright.

Take me to the moon.

Oh.
