

# Patty Loveless, I Miss Who I Was (With You)

(Jim Lauderdale/John Leventhal)

They say I seem different now  
Hope I'm wiser any how  
I've had some time to learn a thing or two  
I know the change has done me good  
But I don't feel like I wish I would  
Sometimes I miss who I was with you

Every time your name comes up  
I just smile don't say too much  
A button's pushed, my heart gets stuck again  
I pray it's just a passing thought  
'Cause we both know we're better off  
But sometimes I miss who I was with you

Stormy days and sleepless nights  
Sometimes we even got it right  
Can't believe what we put each other through  
In spite of all our chemistry  
Some things just aren't meant to be  
Sometimes I miss who I was with you

Every time your name comes up  
I just smile don't say too much  
A button's pushed, my heart gets stuck again  
I pray it's just a passing thought  
'Cause we both know we're better off  
But sometimes I miss who I was with you

Yeah, sometimes I miss who I was with you
