

Paul Alan, She's The Reason

She is the poster child for the faceless and she'll go down in history as forgettable
She'd love it if she could fly but it doesn't work that way
She'll never be on the silver screen but you'll never see her cry

She's an angel and she's got her song for singing and she's got her dancing shoes on
She's more than a face or a star on the walk of fame
She's the reason Jesus came

She's writing a book she'll call the least of these and it's an autobiography
She may be an orphan here but she's gonna have her day

She's an angel and she's got her song for singing and she's got her dancing shoes on
She's more than a face or a star on the walk of fame
She's the reason Jesus came

She's you and she's me and the man at the corner store and the people next door
She's fine with her place 'cuz we're all just leaning on grace and she has no shame
She's the reason Jesus came

She's an angel and she's got her song for singing and she's got her dancing shoes on
She's an angel and she's got her song for singing and she's got her dancing shoes on
She's more than a face or a star on the walk of fame
She's an angel and she's got her song for singing and she's got her dancing shoes on
She's more than a face or a star on the walk of fame

She's the reason Jesus came
