

Paul Brandt, Hope

I can't believe you found me here
You saved me in the nick of time
Just when I thought nobody cared
You reached out and with your hand took mine

You know just how to pull me through
That's what I love about you

You give me hope
And I can face another day
All it takes is love and faith
And the courage to believe

You give me hope
And there's nothing I can't do
I get all my strength from you
Saying you will stand by me
You give me hope

It might be dark
And I might be scared
But whatever this life brings
Knowing that you will always be there
I can take on anything

If you're beside me in this fight
I know I'll make it through the night

Cause you give me hope
And I can face another day
All it takes is love and faith
And the courage to believe

You give me hope
And there's nothing I can't do
I get all my strength from you
Saying you will stand by me
You give me hope

If you're beside me in this fight
I know I'll make it through the night

Cause you give me hope
And I can face another day
All it takes is love and faith
And the courage to believe

You give me hope
And there's nothing I can't do
I get all my strength from you
Saying you will stand by me
You give me hope
