

# Paul Brandt, Hope

I can't believe you found me here  
You saved me in the nick of time  
Just when I thought nobody cared  
You reached out and with your hand took mine

You know just how to pull me through  
That's what I love about you

You give me hope  
And I can face another day  
All it takes is love and faith  
And the courage to believe

You give me hope  
And there's nothing I can't do  
I get all my strength from you  
Saying you will stand by me  
You give me hope

It might be dark  
And I might be scared  
But whatever this life brings  
Knowing that you will always be there  
I can take on anything

If you're beside me in this fight  
I know I'll make it through the night

Cause you give me hope  
And I can face another day  
All it takes is love and faith  
And the courage to believe

You give me hope  
And there's nothing I can't do  
I get all my strength from you  
Saying you will stand by me  
You give me hope

If you're beside me in this fight  
I know I'll make it through the night

Cause you give me hope  
And I can face another day  
All it takes is love and faith  
And the courage to believe

You give me hope  
And there's nothing I can't do  
I get all my strength from you  
Saying you will stand by me  
You give me hope
