

# Paul Carrack, Satisfy My Soul

satisfy my soul, let the day begin  
make the evening roll, let the big sky in  
satisfy my heart, it's so good to feel  
love is all around, and all the hurt will heal  
oh, this is what my heart needs to feel  
oh, this is what my heart needs to feel  
satisfy my soul, take away this pain  
something has to end, to begin again  
satisfy my heart, it's so good to feel  
love is all around, and all the hurt will heal  
oh healing, every moment, every wish you have comes true  
healing, every feeling, that is about to come to you  
satisfy my soul, let the day begin  
make the evening roll, let the big sky in  
satisfy my heart, it's so good to feel  
love is all around, and all the hurt will heal  
oh this is what my heart needs to feel  
oh this is what my heart needs to feel  
( whoo, to feel)  
oh this is what my heart needs to feel  
( need to feel baby)  
oh this is what my heart needs to feel  
( ooh)
