

# Paul Gilbert, Black Rain Cloud

Can I listen to this song  
Without crying  
Can I listen to these words  
Without dying  
Maybe good times I'll remember  
Bad times I'll ignore  
Cause I don't want to feel  
Like a black rain cloud anymore

Can I think about the way  
We were together  
Can I give a little rain  
For better weather  
Let the sun come shining through  
Just like it did before  
Cause I don't want to feel  
Like a black rain cloud anymore

Did I hold on for so long for love  
Or was it just jealousy  
Was I doing everything for you  
Or did I do it for me

If I saw you walking by  
Before you saw me  
Would I run and try to hide  
And if you called me  
Could I answer you and say  
The rain will never pour  
Cause I don't want to feel  
Like a black rain cloud anymore
