Spirit show us the way
Take love away and we are ruined
Take love away and we are lost
Take love away and we are ruined
Lose it and we are lost
Take love away and we are ruined
Where would we be if we should lose it?
Take love away and we are ruined
Lose it and we are lost
How would it feel to never find love
Where would be if we lose love
How would we feel without love
How would we feel without love
Take love away and we are lost if love is gone
Take love away we are ruined without our love
In a world without each other
How could we go on living our lives?
Where would we be without each other
How could we go on
How could we dare to face each other
How could we carry on?
Where could we run to
Where would we hide
Where could we run to
Where would we hide
Where could we run to hide?
Our love, our love
Strengthen our love
Strengthen our love
Our love, our love
Show us how to find ourselves
Guide us from above
(Our love, our love)
Teach us how to find new words
Find new words for love
(Our love, our love)
Confirma amorem meum

Make my soul blessed
Strengthen my love
