

# Paul Stanley, Hold Me, Touch Me (Think Of Me V

Though I know that you are sleepin'  
Girl, there's somethin' I must say  
Though the road may wind  
My love will find the way  
Many the miles have come between us  
And the days, they come and go  
Still with all we feel  
It never really shows

Hold me, touch me, and think of me when we're apart  
Hold me, baby won't you touch me  
And think of me here in the night  
And you know it'll be alright

Though the time apart seems endless  
All my thoughts remain with you

I believe one day  
We'll make our dreams come true

Our goodbyes go on forever  
And with all that we may say  
Till tomorrow comes  
We'll dream of yesterday

Hold me, baby won't you touch me  
And think of me when we're apart  
Hold me, baby won't you touch me  
And think of me here in the night  
And you know it'll be alright  
Mmm, aha, yeah
