

# Paul Van Dyk, Complicated

If I have little space  
If I deconstruct it all  
If I drink until I feel numb  
If I lose a little sleep  
I'll forget I thought you were the one

It's complicated  
(loving this way)

Still chased by ghosts of  
little mistakes

It's complicated [4x]

All the promises  
that you made to me  
unintentional lies  
god I still believe

It's complicated [2x]

If I try to turn it off  
If I swallow all my pride  
If I love till nothings left at all  
If I say but never do  
If I weep a little while  
If I could only make this stop

Tell me that you love me  
Just tell me that you love me

It's complicated [2x]

if I bleed until I dry  
Make love to the loneliness  
Accept that that this is all I've got  
If I convince myself  
Forget whats in the past  
You wouldn't still be what I want

Tell me that you love me  
Just tell me that you love me
