

Paula DeAnda, Marching

If you only knew
Trouble she's been going through
Could you walk in hard shoes
When you ain't got nothing to lose
Say you're hoping you're praying for me
To get back what they took away
So you keep on marching
So you keep on marching
So when you like the sky is falling
And there's nowhere to hide
Tell me are tired of that crawling
And open your eyes
So we go left by left
Left by left (So you keep on marching)
Left by left
Left by left (So you keep on marching)
Left by left
Left by left
They're trynna tear you down
But you gotta keep pushing somehow
Baby stand up proud
Don't be just another base in a crowd
No matter what you're going through
There's someone out there just like you
So you keep on marching
So you keep on marching
So when you like the sky is falling
And there's nowhere to hide
Tell me are tired of that crawling
And open your eyes
So we go left by left
Left by left (So you keep on marching)
Left by left
Left by left (So you keep on marching)
Left by left
Left by left
Hard to cause a miracle
Can't get up just make your move yeaah
Don't procrastatne
No no
Together we will overcome
Marching to a soldier's drum
Step by step
Step so step
Step by step
Left right
Left right
Ooohh!
So when you like the sky is falling
And there's nowhere to hide
Tell me are tired of all that crawling
And open your eyes
So we go left by left
Left by left (So you keep on marching)
Left by left
Left by left (So you keep on marching)
Left by left
Left by left
So when you like the sky is falling
And there's nowhere to hide
Tell me are tired of that crawling
And open your eyes
So we go left by left
Left by left (So you keep on marching)

Left by left
Left by left (So you keep on marching)
Left by left
Left by left
