## Pearl Jam, All Night

Got all night Plenty of time Take these chains From my eyes So alive Gettin 'it prime Take 'em there Before you die Why be satisfied We've got all night Please be here Top of the stairs No place for The president Build some fears Left outside Fuck, be content To just get by Why be satisfied We've got all night You scream and wail You see who cares Scream and wail See who cares Life has nothin' to do with Killin' time So why be satisfied We've got... all night We've got all night We've got all night
