

# Pedro The Lion, A Simple Plan

the plants and the factories are perfectly run  
the workers and bosses are living as one  
people are equal people are good  
people are working as hard as they should be  
it's food for my family and clothes for my kids  
the class war is over and everyone wins  
it's such a simple plan  
to take it like a man  
but i'm not sure i can  
we fought for a decade corruption and greed  
it gave me a purpose a reason to breathe  
but now that it's over now that we've won  
it's back to my bedroom alone with a shot gun  
to think of my family no longer compels me  
with all things in common they'll manage without me
