

# Pegazus, Victim

Darkness shining through  
Blinding my eyes, stealing my soul  
This cannot be true  
It's not my time, not my goal  
Reaper stalking me  
Stealing my sleep, then running away  
Lost reality  
This world you can keep, I'm leaving today

Falling into another day of despair  
Calling, I know I'll have to pay a certain price

Problems weighing down  
Into the night, hear me scream  
World keeps spinning round  
No assistance at all, a demented dream  
Demons distribute pain  
Extracting a price, my reality  
Victim of disdain  
My heart turning black, please set me free

Falling into another day of despair  
Calling, I know I'll have to pay a certain price

Victim, of a neurotic world  
Victim, nowhere to hide  
Victim, got to get out of here  
Victim, it's time to die

Darkness shining through  
Blinding my eyes, stealing my soul  
This cannot be true  
It's not my time, not my goal  
Reaper stalking me  
Stealing my sleep, then running away  
Lost reality  
This world you can keep, I'm leaving today

Falling into another day of despair  
Calling, I know I'll have to pay a certain price

Victim, of a neurotic world  
Victim, nowhere to hide  
Victim, got to get out of here  
Victim, it's time to die
