

Pennywise, Can't Believe It

Wait! Can't Believe it
Another victim another life another wasted casualty
The youth are shooting, robbing and looting
violence plagues society
in LA. you see it everyday on your TV on your front page
you can try but you can't wish it away
I said wait can't believe it drunk and loaded in the street
hatred flowing through their veins no respect for human life
a world that slowly goes insane
on your front page on your TV it's the endless urban tragedy
in your dark thoughts and wildest dreams can you imagine
a worse society and when I think I can pretend
I turn on my TV again and all the fucked up things I see
I can't believe how this can be.
