

Pennywise, Final Day

You got a problem you don't know it
Don't know how long you can suffer it
And it burns you can feel it till the bitter end
It didn't have to be this way
You could have carried on
Another chance for you to test your freedom
Where did it go wrong?
Don't know how long it's been inside you
But you weren't feeling right
Together we could always solve you problems
But now you're out of sight
How many times did I ask you
What's going on?
Didn't we have so many thoughts in common
Where did it go wrong?
Ain't no use in denying with each word spoken you give yourself away
Your troubles are multiplying your lying and soon you are gonna face
Your final day
Don't know when it's gonna come your final day
You didn't think that I would notice
I see it in your eyes
The tragic flaw was you forgot to back up all your alibis
You kept it hidden deep inside you
How you were feeling then
Did you give all of your time to someone?
Was the time well spend?
You got a problem you don't know it
Don't know how long you can suffer it
And it burns you can feel it till the bitter end
All that's hidden within you is worth repeating
Say what you want to say
You got to try and just get through
What's in you or soon you are gonna face
Your final day
