

# Pennywise, Greed

Everything you see you always think you need  
You are so crazy motivated by greed  
You never take responsibility  
You only waste your time when you fuck with me  
All you do is take you see my hatred grows  
Can't take much more I'm about to explode  
You'll see a side Of me I've never shown  
You'll feel pain like you've never known  
Got enough but you want it all  
In it for greed now you're gonna fall  
Here we come gonna ruin your day  
Time has come It's your turn to pay  
The mighty dollar is your only care  
You're movin' up but you're going nowhere  
You say you only want to get your share  
But you still want more no you won't play fair  
you'll never ever quit you won't be denied  
You sit and watch your money multiply  
To get what you want you'll cheat and lie  
But I know - you won't be satisfied  
Today is a good day for suffering
