

# Pennywise, Set Me Free

Life is a lesson you can only learn for free and time keeps on slippin'  
like a faded memory  
And I got the answers starin' right in front of me, time heals my soul  
Set me free, set me free, set me free, set me free  
I stand about, face my mission, you don't know what you've been missin'

There is a reason for all that comes to be  
My troubled life riddled with dark insanities  
I need solutions through the pain that surrounds me, time heals my soul

Set me free, set me free, set me free, set me free  
I stand about, face my mission, you don't know what you've been missin'

Life is a lesson you can only learn for free and time keeps on slippin'  
like a faded memory  
And I got the answers starin' right in front of me, time heals my soul

Set me free, set me free, set me free, set me free
