

# Pennywise, Something To Live For

True to follow  
Hard to swallow  
Don't you know that they're wasting your time  
But they need you  
And beseech you  
To support their bastion of crime

The darkness is falling  
Can we wake up in time?  
We can't lose the battle  
Lose it today keep the good times away  
Give me Something To Live For  
We're finding a way  
Out of the shadows  
You've got to show me that we can live for today

Never listen,  
Don't ask questions  
Don't expect them  
To tell you the truth  
They'll deceive you and besiege you  
With the lies they disguise just for you

The darkness is falling  
Can we wake up in time?  
We can't lose the battle  
Lose it today keep the good times away  
Give me something to live for  
We're finding a way  
Out of the shadows  
You've got to show me that we can live for today

Fall and sorrow  
For tomorrow  
Days of pain that are waiting for you  
Time is bleeding  
Keeps repeating  
My lifetime to find out the truth

The darkness is falling  
Can we wake up in time?  
We can't lose the battle  
Lose it today keep the good times away  
Give me something to live for  
We're finding a way  
You've got to help me  
Help me to believe we're gonna find a way  
Give me something to live for  
We're finding a way  
Out of the shadows  
You've got to show me that we can live for today
